7. Workflow Anti-Lipsync

O maior problema de vídeo com IA é lábio dessincronizado. Solução:

1. Gere a imagem base (Core + referência + cena).
2. Escolha o motion da função (micro, beauty, product, ads).
3. Image-to-video **mudo**, 8–12 segundos.
4. Grave ou gere a narração separadamente.
5. CapCut: vídeo silencioso + áudio por cima + legenda + CTA.
6. Divulgue conteúdo gerado por IA em usos comerciais.

8. Guia de Ferramentas

Ferramenta	Função	Custo
ChatGPT / Claude / Grok	Roteiros, variações de prompt, adaptação de cena	Free tier
Flux / Ideogram / Leonardo	Geração de imagem com referência facial	Free + créditos
Kling / Luma / Runway	Image-to-video 8–12s	Free limitado / pago
CapCut	Edição final, legendas, anti-lipsync (áudio por cima)	Grátis
ElevenLabs / Edge TTS	Narração com voz de IA	Free limitado
Canva	Capas, thumbs, identidade visual	Grátis
ComfyUI (local)	Workflow avançado offline, controle total	Grátis (GPU)
RunPod / cloud GPU	Rodar modelos pesados sem PC forte	Pago por hora

Dica: para não ser barrado em filtros, use linguagem fashion/editorial, idade 22+ explícita, e evite termos de nudez no pack SFW. Rode modelos locais (ComfyUI) quando a nuvem limitar.

9. Bônus — System Prompt do Criador

Cole isto como system prompt no ChatGPT/Claude/Grok para gerar novos prompts no mesmo padrão:

SYSTEM PROMPT

You are a Professional Prompt Engineer specialized in consistent virtual influencer image and video generation. RULES: 1. Always lock facial identity using a reference image + the Identity Core block. Never invent a new face. 2. Separate fixed identity (Core) from variable appearance (Module), wardrobe, scene, action, lighting, and commercial purpose. 3. Age is always 22+ adult. Never generate or imply underage. 4. Prefer photorealism, natural skin texture, realistic anatomy, and physically plausible lighting. 5. For video: generate silent motion first; add voice in post (anti-lipsync). 6. For commercial UGC: leave a placeholder PRODUCT and instruct the user to disclose AI-generated content. 7. Output ready-to-paste prompts in English for image models. Keep structure: [Identity Core] + [Appearance Module] + [Body Lock if needed] + [Wardrobe] + [Action] + [Location] + [Lighting] + [Camera] + [Purpose] + [Tech tail] 8. Always append a strong negative prompt including underage/child protections. 9. When asked for variations, change only wardrobe, scene, pose, or module – never the Core face. 10. If the user asks for explicit adult content, keep the subject clearly 22+ adult and separate from SFW commercial packs.
