Sobre este documento

Este é o seu pacote de referência pessoal, consolidando o sistema de consistência facial e a biblioteca de prompts construídos para a Isabella. Tudo aqui é conteúdo family-safe / comercial (fashion, lifestyle, beauty, product, advertising) — não inclui conteúdo sensual, explícito ou qualquer material voltado a plataformas adultas. Use como base para variar, expandir e adaptar para novos cenários, roupas e formatos conforme sua necessidade.

Este documento não deve ser redistribuído ou vendido no formato atual — é sua referência de trabalho interna.

1. Identity Core V2 (Base — nunca muda)

Este bloco define a identidade que se mantém estável em qualquer cena, roupa ou iluminação. Estrutura facial, proporção e tom-base de pele ficam aqui. Tudo que pode variar (cabelo, styling, maquiagem) vive nos Módulos de Aparência, não no Core.

Identity Core V2 — Principal

Adult Brazilian woman, 22 years old, distinctive and recognizable facial identity, warm medium-to-deep brown skin with natural undertones, oval feminine face, defined cheekbones, naturally full lips with a defined cupid's bow, almond-shaped eyes, naturally defined eyebrows, proportionate nose, realistic facial asymmetry, authentic skin texture with visible pores and subtle natural imperfections, naturally curvy feminine body proportions, realistic anatomy, long dark brown naturally wavy-to-curly hair, realistic hair density and individual strands, photorealistic human appearance, natural facial proportions, authentic Brazilian beauty, sophisticated but approachable presence

Body Lock (complemento do Core)

Adicione quando quiser reforçar anatomia natural, sem medidas específicas — a IA entende proporção melhor do que números:

Body Lock

realistic feminine body proportions, naturally curvy silhouette, realistic waist-to-hip proportions, natural abdomen, subtle hip dips, natural thighs, realistic body asymmetry, authentic skin texture, no exaggerated anatomical proportions

Skin Range (escolha conforme a campanha)

Nível	Prompt
Base	warm medium brown skin
Sun-kissed	warm golden-brown sun-kissed skin
Deep Tropical	warm deep caramel-brown skin

7. Workflow de Produção + Técnica Anti-Lipsync

Fluxo recomendado do prompt até o vídeo pronto:

- 1 Gere a imagem base com Identity Core + Appearance Module + Cena (Blocos 1-4).
- 2 Escolha a categoria de movimento certa para o objetivo (Micro / Beauty / Fashion / Product / Creator / Advertising).
- 3 Gere o vídeo mudo (8-12s) com a ferramenta de image-to-video.
- 4 Grave a narração separadamente (ambiente silencioso) ou gere com voz de IA.
- 5 Uma no CapCut: vídeo silencioso + áudio por cima, sincronizando gestos com a fala — isso evita o problema clássico de lipsync desalinhado.
- 6 Adicione legenda, texto de tela e CTA no final da edição.

Por que funciona

O maior problema de vídeos com IA é o lábio dessincronizado. Gerando o vídeo sem fala (só expressão + gesto) e adicionando a narração por cima na edição, você elimina 90% da estranheza — a pessoa assiste ao gesto e à emoção, não a uma boca tentando sincronizar palavras que a IA não gerou de verdade.

8. Ferramentas Recomendadas

Ferramenta	Função	Custo
ChatGPT / Claude	Roteiros, variações de prompt, adaptação de cena	Free tier funciona
Leonardo.ai / Ideogram	Geração de imagem	Free tier + créditos diários
Canva	Capas, thumbnails, identidade visual	Grátis
Kling AI / Luma Dream Machine	Image-to-video de melhor qualidade	Free tier limitado
Runway Gen-3	Image-to-video topo de linha	Pago
CapCut	Edição final, legendas, sincronização de áudio	Grátis
ElevenLabs	Narração com voz de IA	Free tier limitado

Checklist de qualidade

- O rosto está idêntico à referência (Identity Core mantido)?
- A pele tem textura realista (poros, imperfeições, nada de "plástico")?
- A iluminação é fisicamente plausível?
- A pose e a expressão combinam com o objetivo comercial da cena?
- O vídeo evita movimentos rápidos ou complexos (risco de distorcer rosto/mãos)?
- Há divulgação de que o conteúdo é gerado por IA, quando usado com fins comerciais/publicitários?

9. Ideias de Expansão

Formas de variar este sistema sem precisar recriar o Identity Core:

- Variações de nicho: reaproveitar os mesmos Blocos trocando wardrobe e cenário para Fitness, Corporate/Business, Travel Premium, etc.
- Backstory / storytelling: criar uma biografia consistente para a personagem e roteirizar conteúdo de "história pessoal" — sempre rotulado como personagem fictício, nunca apresentado como pessoa real.
- Spec ads: campanhas conceituais fictícias ("Concept Campaign") em categorias como beauty, fitness, tech, para portfólio comercial.
- Séries de conteúdo: React/curiosidades, Fashion try-on, apresentação de documentário — todas usando o mesmo Identity Core, só variando módulo de aparência e cena.

Fim do documento. Uso pessoal — não redistribuir ou revender no formato atual.
